*The Leading International Resource for  
Information, Education and Certification for Public Safety*

## Traffic Signal Field Technician, Level 2 Certification Training

The Traffic Signal Level II Certification indicates the holder has a well-rounded background in traffic signal technology from coursework and experience. The Level II Field certification indicates the technician has additional training on traffic signal control system troubleshooting, on-site repairs, and maintenance methods and equipment. Areas of training include worksite safety, maintenance of traffic, traffic signal system equipment standards and operation, installation inspection, troubleshooting, equipment repair, replacement and programming, test equipment, signal phasing and timing, detection, system communications, preventive maintenance, and documentation. The certification holder is prepared to make a substantial contribution in the maintenance and repair of signalized intersections, whether employed by a private firm or a public agency.

Study Guide: 266 pages Copyright 2008

<b>Date</b>	April 6, 2011	8:00am - 3:15pm	Course material
	April 7, 2011	8:00am - 3:15pm	Course material
	April 8, 2011	8:00am - 12:00pm	Review and exam
