Information, Education and Certification for Public Safety*

Traffic Signal Construction Technician – Level 2 **Certification Training**

The Traffic Signal Level II Certification indicates the holder has a well-rounded background in traffic signal technology from coursework and experience. The Level II Construction certification indicates the technician has additional training on traffic signal control system construction, safety, materials, methods, and equipment. Activities covered include: safe operation of construction equipment (from concrete saws to cranes), planning activities, documentation, and installation of conduits, poles, mast arms, signal heads, cabinets, and inductive loops. Setup and testing of a new signal installation is also reviewed. The certification holder is prepared to make a substantial contribution in the traffic signal construction group of a private firm or a public agency where new or replacement traffic signal construction is the focus. Study Guide: 187 pages Copyright 2009

Date	April 11, 2011	8:00am - 3:15pm	Course material
	April 12, 2011	8:00am - 3:15pm	Course material
	April 13, 2011	8:00am - 12:00pm	Review and exam
